

Profile

Full Stack Web Developer with 5+ years of experience in crafting dynamic web applications. Optimised backend systems using Node.js and TypeScript, achieving a 40% reduction in page load times and a 25% increase in organic search rankings. Designed responsive interfaces with React and Tailwind CSS, enhancing user engagement across devices by 30%. Specialised in implementing CI/CD pipelines and cloud migrations, ensuring high availability and reliability of services.

Professional Experience

Nextthink

Jul 2022 to Apr 2026

Full Stack Web Developer

Optimised Node.js/TypeScript backend and implemented Next.js server-side rendering, reducing average page load times by ~40% and enhancing organic search rankings by over 25%. Converted Figma designs into accessible, responsive React interfaces with Tailwind CSS, boosting cross-device engagement by ~30% and average session length by 20%.

- Designed scalable GraphQL schemas in Hygraph, cutting redundant API calls by ~35%.
- Migrated WordPress to headless CMS, decreasing marketing team time-to-publish from days to under an hour.
- Built RESTful API integrations, reducing client-side errors by ~45%.
- Improved web accessibility, achieving WCAG 2.1 AA compliance.
- Collaborated across teams using Git workflows, contributing to a ~30% reduction in production incidents.

BreakFree Solutions

Dec 2021 to Jul 2022

Full Stack Developer / DevOps

Developed automated CI/CD pipelines for web application deployments, cutting release cycle time by 80%. Supported migration of web services to AWS and Azure, achieving 99.9% uptime across production environments. Collaborated with front-end and back-end developers to optimise deployment workflows.

- Reduced feature delivery risk through streamlined processes.
- Enhanced site reliability during cloud migrations.
- Improved team efficiency, ensuring timely feature releases.

Education

Full Stack Web Development Certification

High School Diploma
